

## SLIME RECIPE USING LIQUID STARCH

### Ingredients

1 bottle liquid starch

1 (5oz) bottle white or clear glue

Food coloring or liquid water color

5 oz warm water

### Optional

Essential oils or spices

Glitter

Pour bottle of glue into a medium sized bowl. Fill empty glue bottle with warm water and then add to bowl with glue. Add coloring. Stir to combine. If using scent or glitter, add now. Fill empty glue bottle with liquid starch & add to bowl. Stir. Once combined, knead with fingers. Slime will be ready when it sticks to itself and not the sides of the bowl.
